Dr. Warren Juhnke, Principal

The Fall Semester of the 1969-70 school year was one of challenge and opportunity for the students of Uni. Some of the challenges were created by the financial conditions of the School District, the first semester of operation of our PTSA, the expansion of our human relations program, and the need to finance and carry out an extensive student activity program for our growing student body. In every instance, the Uni student body came through with a genuine concern for the school, active participation in the program, and the type of excellence in results which has characterized this student body. Through the successful facing of challenges, our student body has shown its quality, both as individuals and as a group. This is really what education is about—learning through experiences to meet and face the challanges of life.

When the Senecan class graduated on January 30, 1970, it marked the passing of a milestone for the Senecans are the last mid-year class to graduate from University High. This ceremony also marked the departure of a class that made many noteworthy contributions to Uni High. In the academic, athletic, artistic, and activity programs, whenever noteworthy achievements were made, members of the class of Winter, 1970 were in leadership positions. As we bid them farewell, we say well done and thank you.

FALL STUDENT BODY

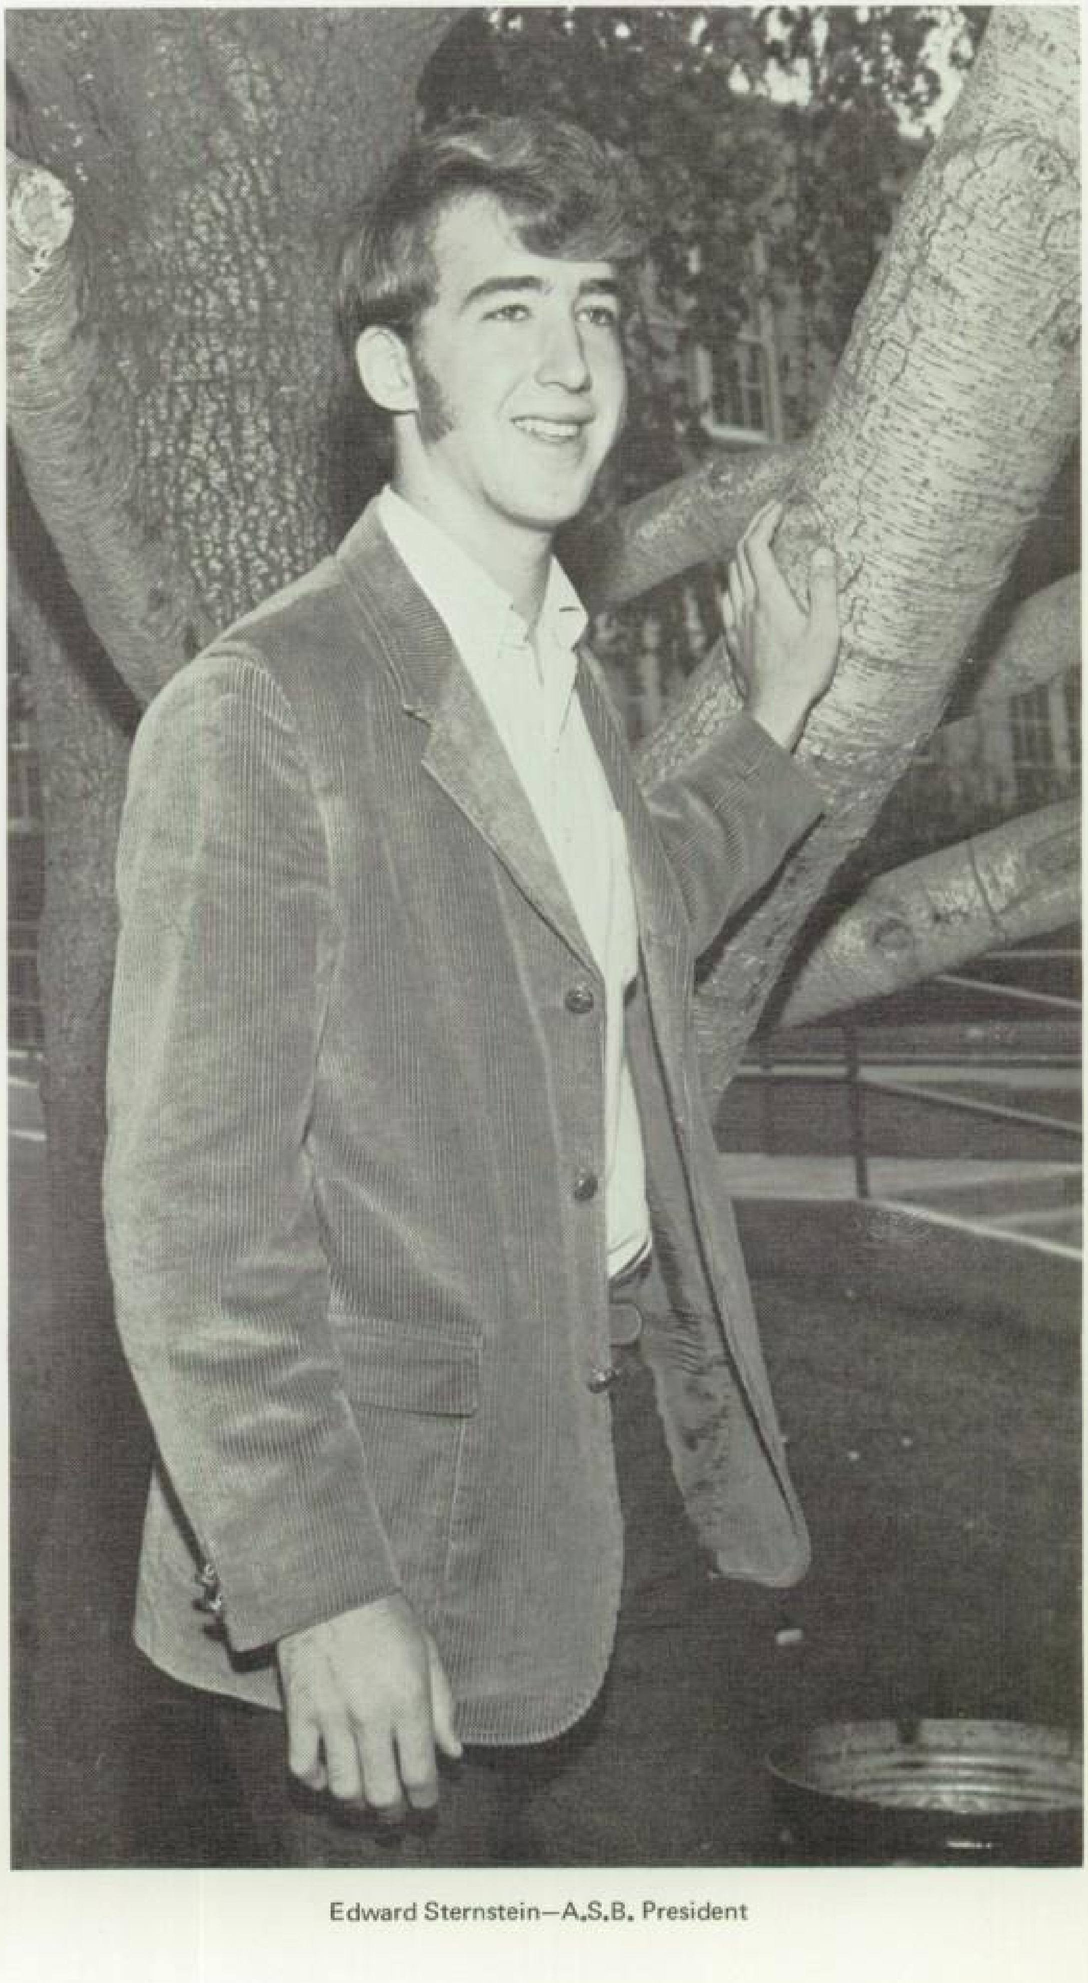

This past fall semester, I was greatly honored to be ASB President of University High School. While working in my capacity I became acutely aware of the changing attitude of a high school student in the Los Angeles City School System.

Leadership class, a branch of the student government, played a changing role this semester. As in the past we were concerned with providing a diversity of activities for all students. The Vietnam Moratorium and the traditional Uni Gras attracted the greatest involvement. But I found that activities are really not of the greatest concern to the majority of the student body. Leadership class attempted to improve the school through curriculum advancement and administrative policy changes. What students want now is quality education in the entire Los Angeles City School System.

At the beginning of the fall semester I'm sure you remember the one-day teacher protest against the system. This was the beginning of a unified effort by all persons involved with the long awaited improvement of Uni High. But then as the semester progressed students slowly lost interest in high school and seemed to fall into the trap of "apathy". It was first interpreted as apathy from content. "We have it good at Uni, and are bound by the system anyway, so what can we improve?" was one remark. It is true we are bound by a system, but we are also greatly bound by the lack of unity and interest to get behind a cause. Improvements can be made by students today!! A minor example is the cafeteria food improvements and satellite acquisition. On a more widespread scale, we have made improvements directly with the Board of Education. This year I was elected to the Student Advisory Board of the Board of Education. In January this board made many pertinent suggestions for definite improvements in the city. In general they include a Student Bill of Rights, course and textbook evaluations, students finance policy changes, revision of building, designing and decorating of policies, and liberalization of all dress codes in the entire city.

Future leadership classes will provide creative activities as we did this semester but will also continue to play a bigger role in the changes that will continue to improve our high school. As Eldridge Cleaver was quoted as saying, "If you're not part of the solution, you're part of the problem."

Defensive play characterized the type of football played by the UNI High Bee Team this year. Although the team record for Fall 1969-70 was 1 and 7, the team was in or very close in all but two of the games played.

Standout performances on defense were turned in game after game by Eugene Philpott; Middle Linebacker, Tito Molina; Middle Guard, John Komesu; Outside Linebackers, Bruce Mochizuchi and Shogo Kadowaki; and Tackle,Marty Tachiki. Each game a "Scalphunter" of the week was awarded to the man who scored the most points in the game. Points were awarded to the man on the basis of assisted and unassisted tackles, fumble recoveries, pass interceptions, and tackles of the quarterbacks. The leaders in this department for the season of Fall 1969-70 were Eugene Philpott and Tito Molina.

Outstanding performers, offensively were: Pete Dominguez, Fullback; Glen Kulik, Quarterback; Ron Denney, Split End; Lonnie Hanlon, Split End; Bobby Koda, Wingback; Adam Jones, Halfback; Marc Schneider, Quarterback; Joey Garcia, Quarterback; and Dave Levy, Wingback.

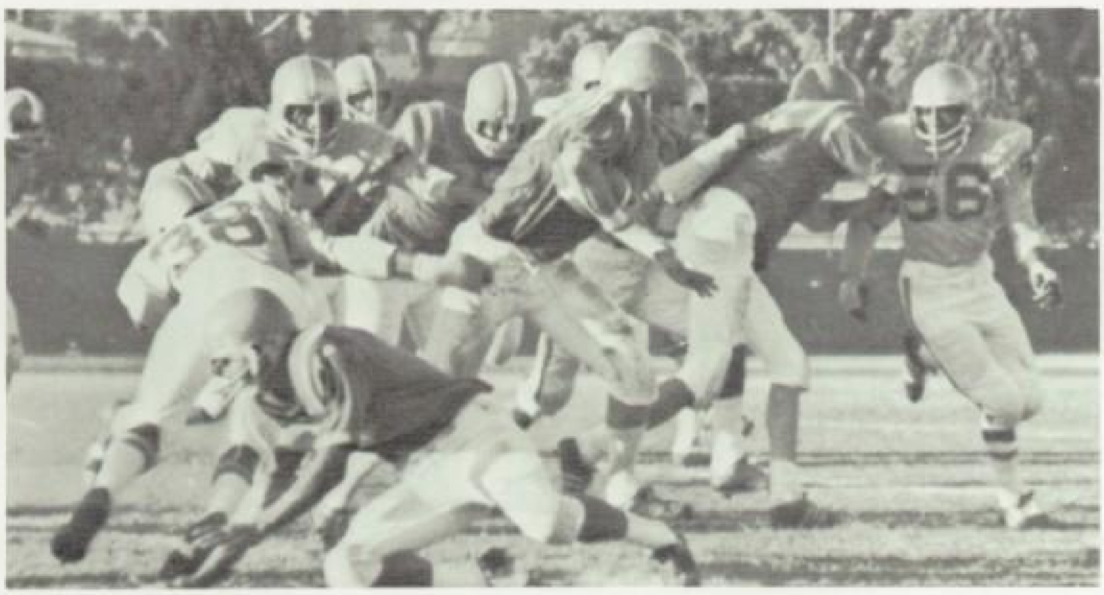

This season was one of great frustration for the players and coaches because of the injuries and inexperience. The watchword for next season is "Experience" as we have 48 boys returning to the Bee Team for the season of Fall 1970-71.

Uni's varsity cross-country team ended the season with a record of three wins and five losses. Two of these losses were very close, a loss to Venice by one point and another to Westchester by three. The outstanding senior, as voted by the team, was Bill Martinez (B12), whose performances were strong throughout the semester. Peter Marks, the phenomenal tenth grader was one of the main stays throughout the semester.

The jayvee team had a winning season, winning five and losing three. Only one of these losses was to another league team, Pali. The jayvees' performances took them all the way to the city finals, led by Robert "Flash" Kaufman (11) and Robert Tom (B12). Both Roberts were key factors in the jayvee victories. Others deserving mention are Oscar Alcerro (B12) and Bob Kandelin (A12).

Bruce Bonynge
Guard

The varsity ended the season with a 3-7 record, tied for fourth place. The team was led most of the time by Bruce Bonynge, who have averaged 21.2 points per game, and Napoleon Hendrix and Bob Berryman. Coach Courtney Borio, the varsity coach, is quoted as saying, "that he was not disappointed in the individual players themselves, but in the performance as a team." At the beginning of the season, he said, "that the Western League would be the toughest league"and reconfirmed that statement after the final game.

"FLOWERS FOR ALGERNON"

Charlie Gordon, a mentally retarded man, is the subject of an unusual experiment that increases his intelligence to genius level, just as it had for Algernon, a laboratory mouse. Charlie's driving search for knowledge is complicated by his emotions; he cannot understand his old friends, he needs to find both the parents who rejected him and his own identify. . .and he is deeply in love with his teacher, Alice Kinnian. But when Algernon begins to regress, Charlie's future is place in doubt. Will he remain intelligent? The anguish and stamina of this remarkable man is the drama of "Flowers for Algernon".

AMERICAN FIELD SERVICE

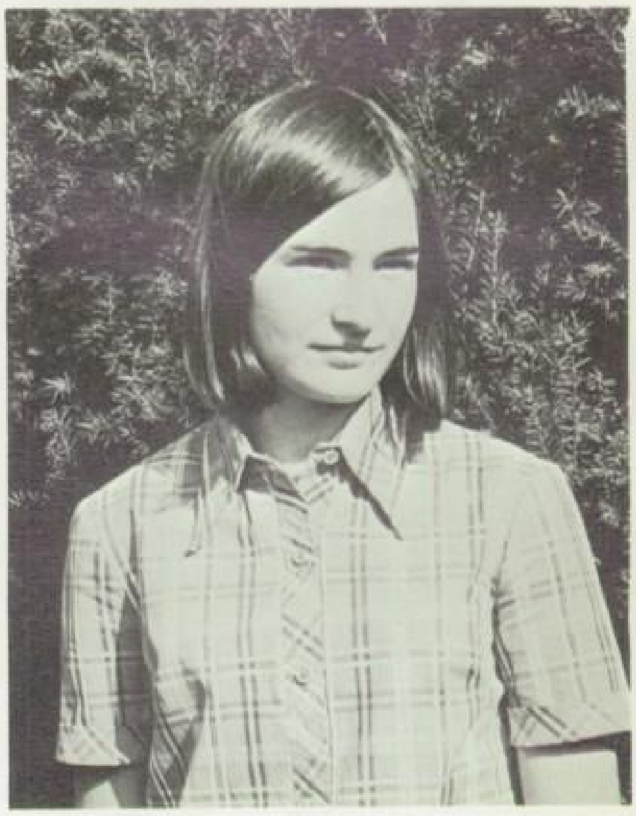

Yveline Vanzanges, Martinique

I would like to thank you for showing me what an American High School is.

The past year here has been such an experience for me, as a student from a country which has a so completely different set of values. I particularly thank the faculty who have shown a special interest in me.

My stay in the United States was really a success and I hope more teen-agers will have the opportunity to meet and know American people as I did.

Yveline Vanzanges

Nele Stoevesandt, Germany

I want to tell you how much I enjoyed being an exchange student at Uni High. I really have had a wonderful year in Los Angeles. There were many similarities between my school in Germany and Uni. The kids are very much alike. The student-teacher relationships and student problems are the same. There were many contrasts, too. I had twelve subjects in my German School, and here I have only six. My German School was much smaller compared to Uni. There were only 800 students from 5th to 13th grade at my school. I liked that better because I could know more people.

Thank you for being so friendly.

I wish I had become acquainted with more of you!

Cornelia Stoevesandt.

Ricki Alpert, Summer Exchange Student

Last summer I had the opportunity to live with an Indonesian family whose culture is so radically different from that to which I had been accustomed. At first, I was overwhelmed by mosquitos, a new language, and sicknesses familiar to the average person travelling abroad. But the thoughtfulness and generosity of my Indonesian family and friends helped me adjust—and more than that—contributed to my thinking and growing and fully enjoying the AFS opportunity. The friendships which evolved from that summer made it a worth-while and unforgettable experience.

EIGHTY EIGHTH COMMENCEMENT

A great deal of concern has been expressed in our society over the general apathy of the majority of the population. Evidence of this same apathy has been seen during the past few years at Uni.

During the Spring Semester of the 1969-70 year, positive programs were developed by the student leaders and faculty to involve more Warriors in the curricular and co-curricular programs of the school. Besides the many experimental courses and curricular innovations, the program of guest speakers for department invitational assemblies, concerts, a fund-raising drive, an all-school campaign against pollution, and a renewed interest in a highly successful Spring athletic program to name just a few, helped to involve larger numbers of students than at any time in recent years in Uni High.

To the members of Herbert, the first Uni class to graduate in Pauley Pavilion, our congratuilations on many other note-worthy achievements during your three years at Uni. Not only have you made many important contributions to our school, but the experience you have gained through the successes and failures you have experienced helped to make you more complete human beings. As you leave Uni for new experiences and new role in our society, our congratulations and best wishes go with you.

"In our complex society, governments are changing, feelings and emotions are changing. As students in high school, we are being sheltered and denied this change."

This quote is from a speech I gave during elections. But I believe it also explains, partly, the direction and motivation behind this spring's student government.

The draft lottery, ecological problems, civil rights, and helping the under-priviledged are but a few of the problems of today's society dealt with in student initiated programs. New classes have been added to school curriculum in an attempt to make it more related to society. Seminars and independent study programs have been offered in many departments to enable high school students to assume more of the responsibilities of adulthood.

However, I see these types of programs as only part of student governments role. The other is reflected on campuses throughout the nation as a changing attitude towards student involvement in their schools. No longer does it exist to provide only fun and games. It exists, rather, to assume its rightful position as the voice of the students in determining school policy, formulating educational programs, and maintaining vital student body functions. Much has been accomplished in that direction this spring, but still more lies ahead.

Student body officers, and I am no exception, have complained for years about a lack of participation, interest, and concern. Some have said that there was a communication barrier within the student body. In short, "apathy" has reigned supreme.

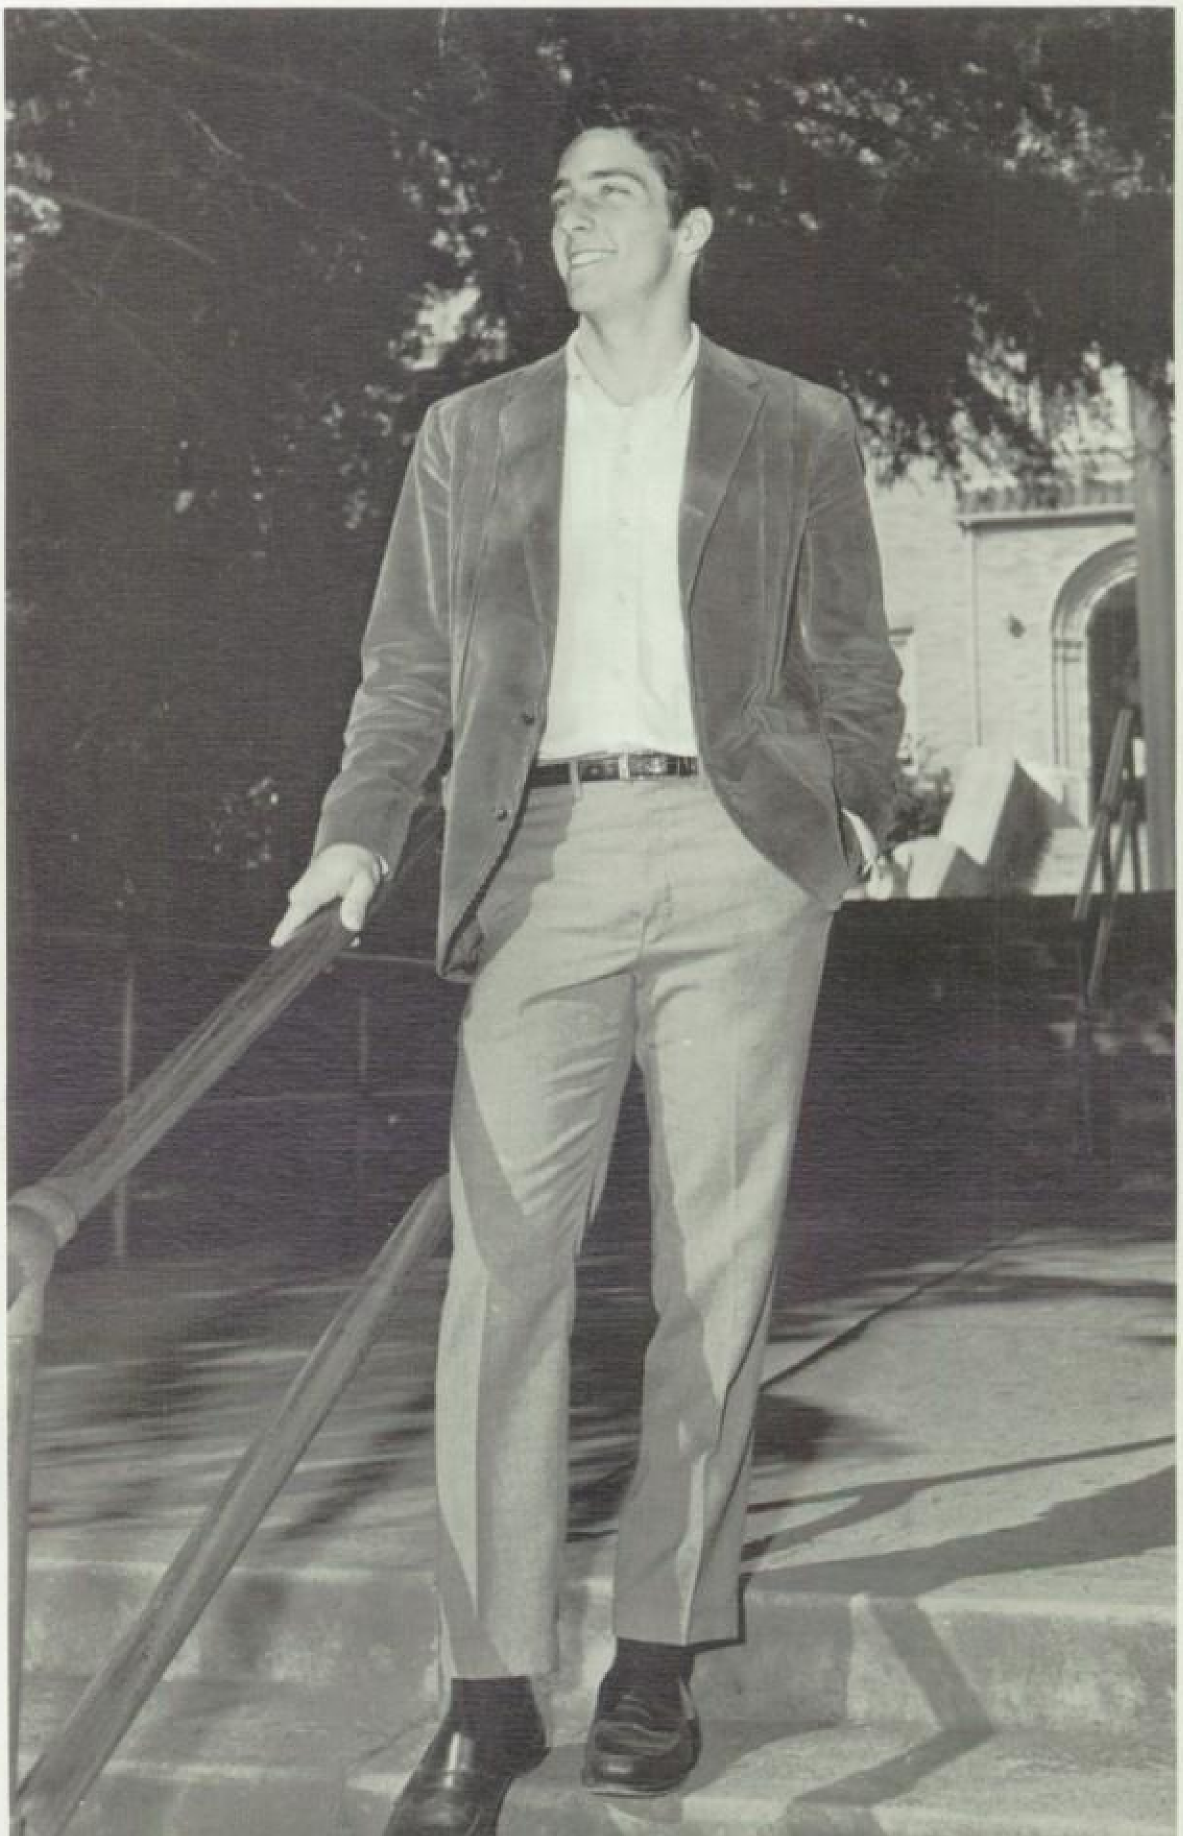

Why? Because student government, in the past, denied the students the fact that they were in school to learn. They have covered up this reality by providing an abundance of activities instead of attempting to correct obvious inequities in the school.

Perhaps student government will continue to gain its rights and freedoms, becoming meaningful to each student in the school. The cries of apathy and communication have softened this year, and perhaps in years to come they will no longer be heard.

Being Student Body President isn't easy. It runs no regular hours, nor has it guidelines to follow. It is what one makes it to be. There were times when it took priority to my personal life, or brought me between friends. Sometimes I felt a sense of accomplishment, and other times I felt nothing but frustration. But regardless of what I felt, I did what I thought was best for all concerned.

SUMMER 1970

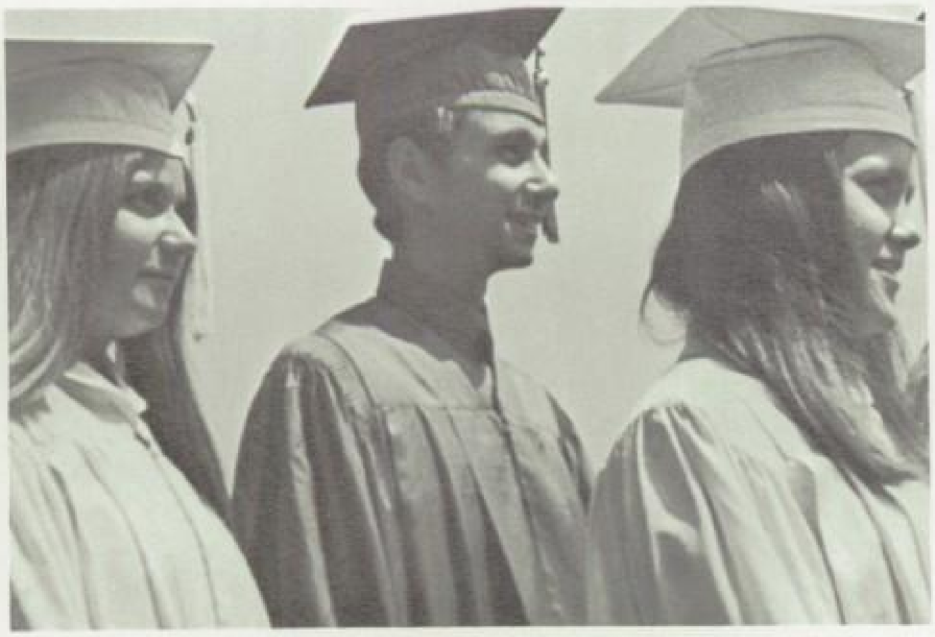

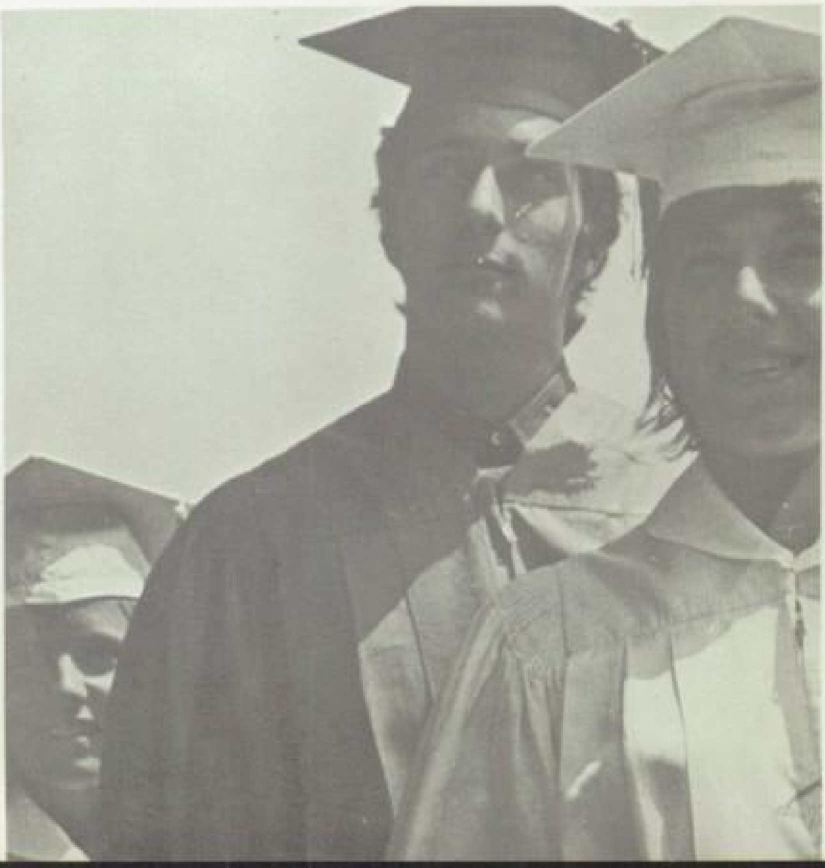

EIGHTY NINTH COMMENCEMENT

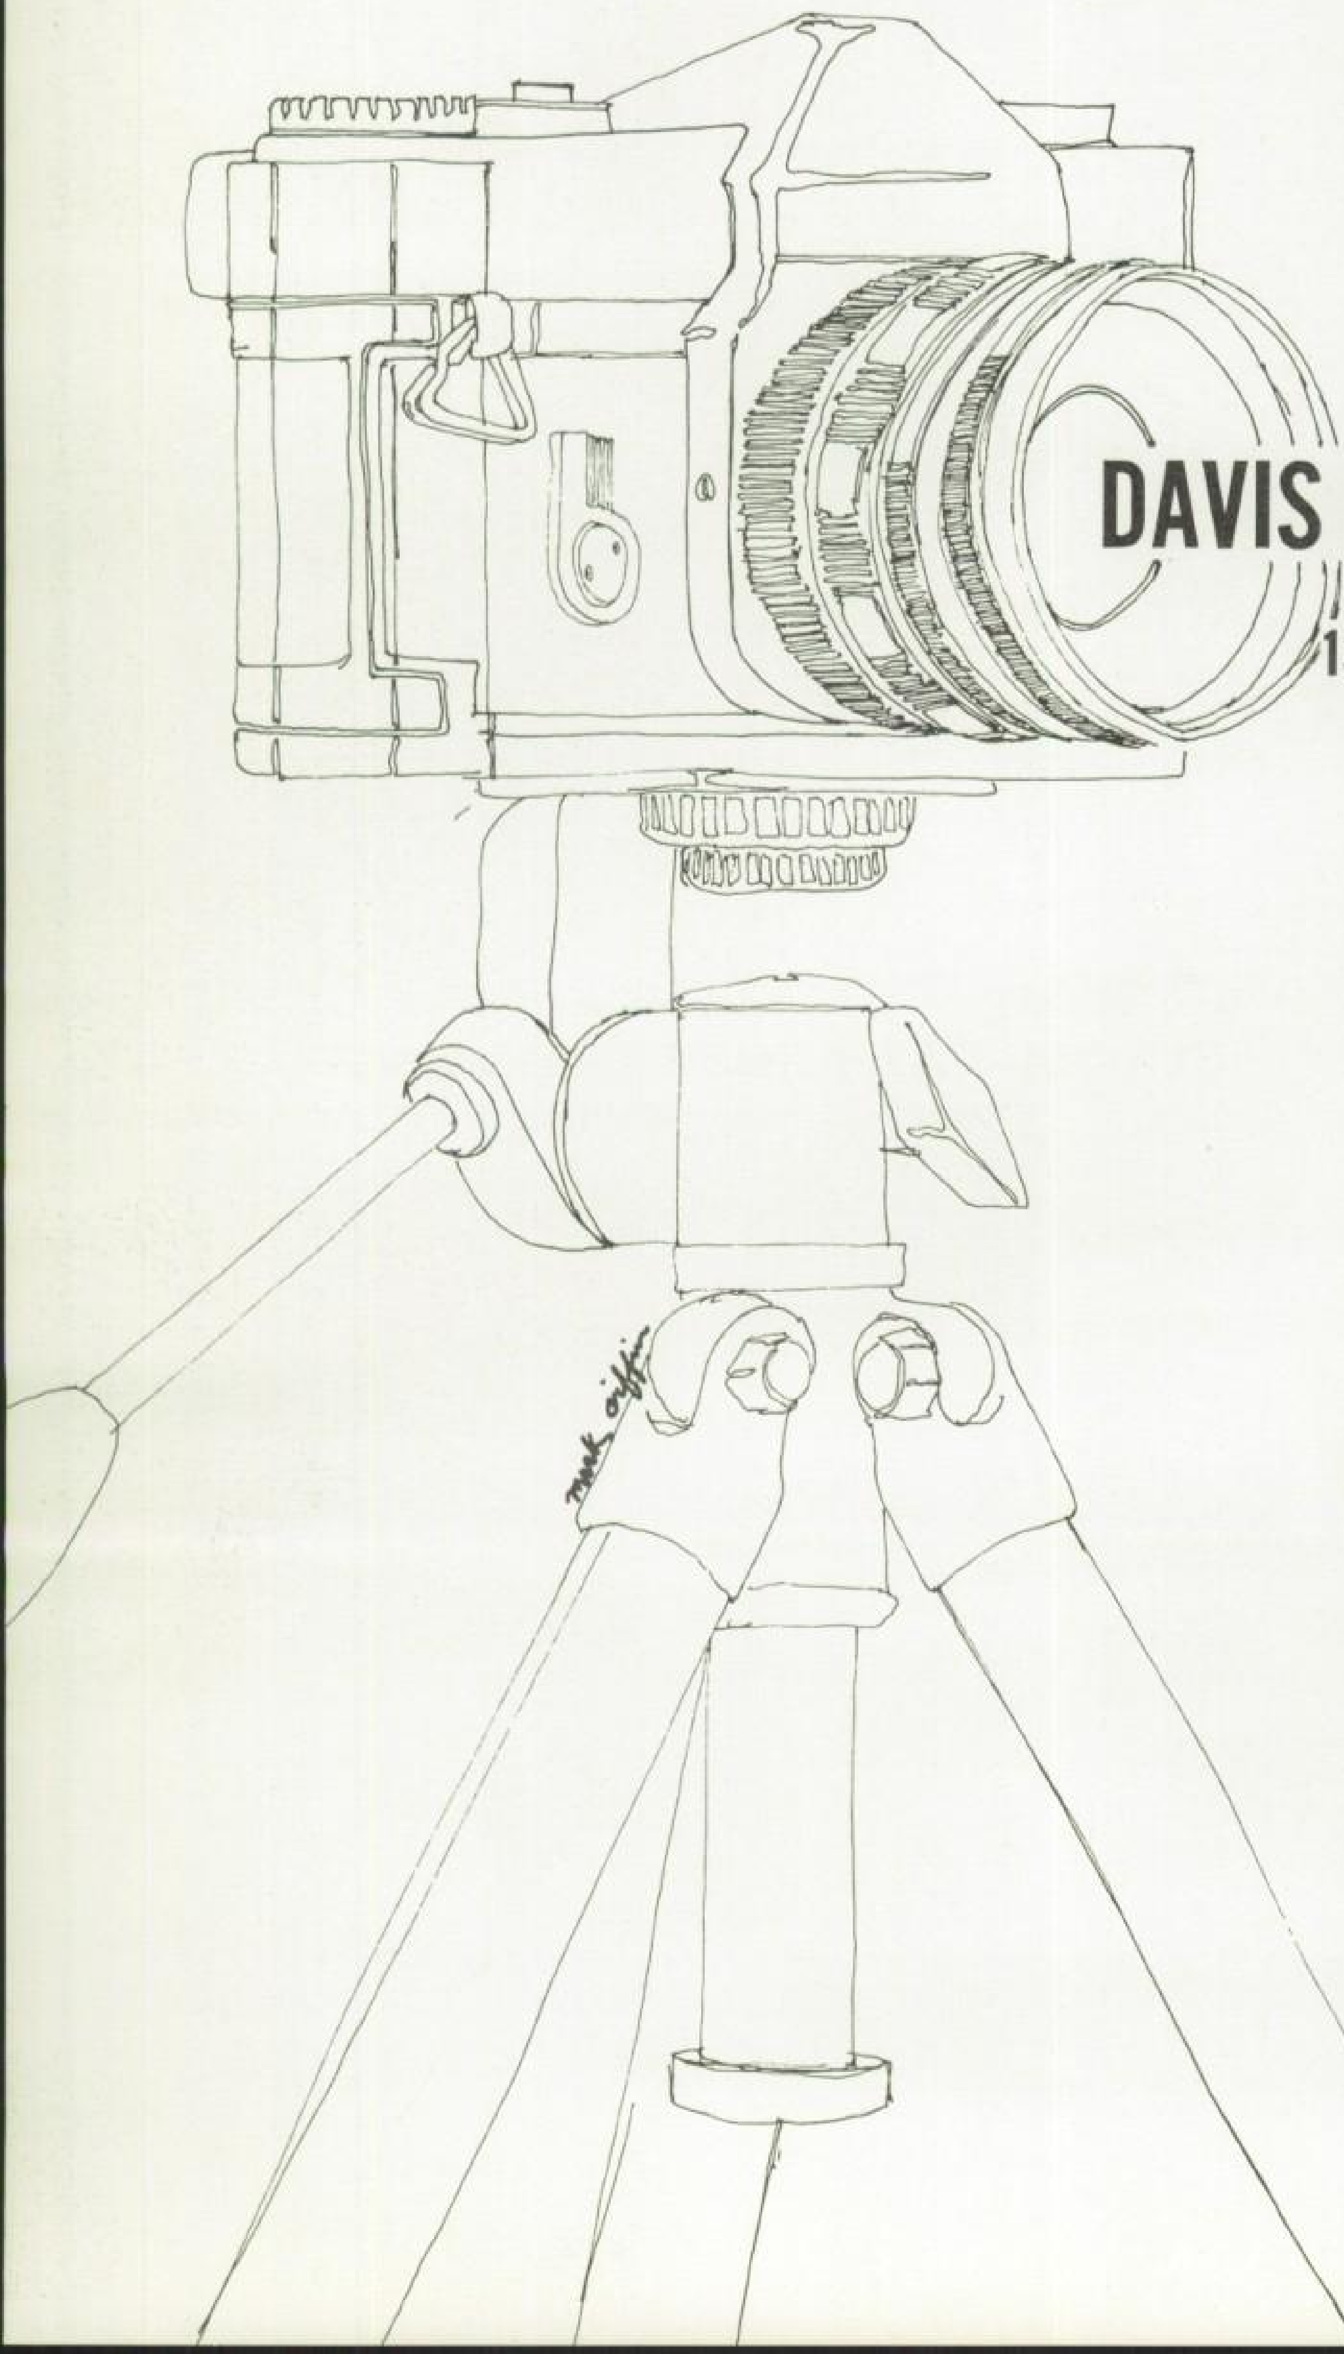

"PLEASE PATRONIZE OUR ADVERTISERS"

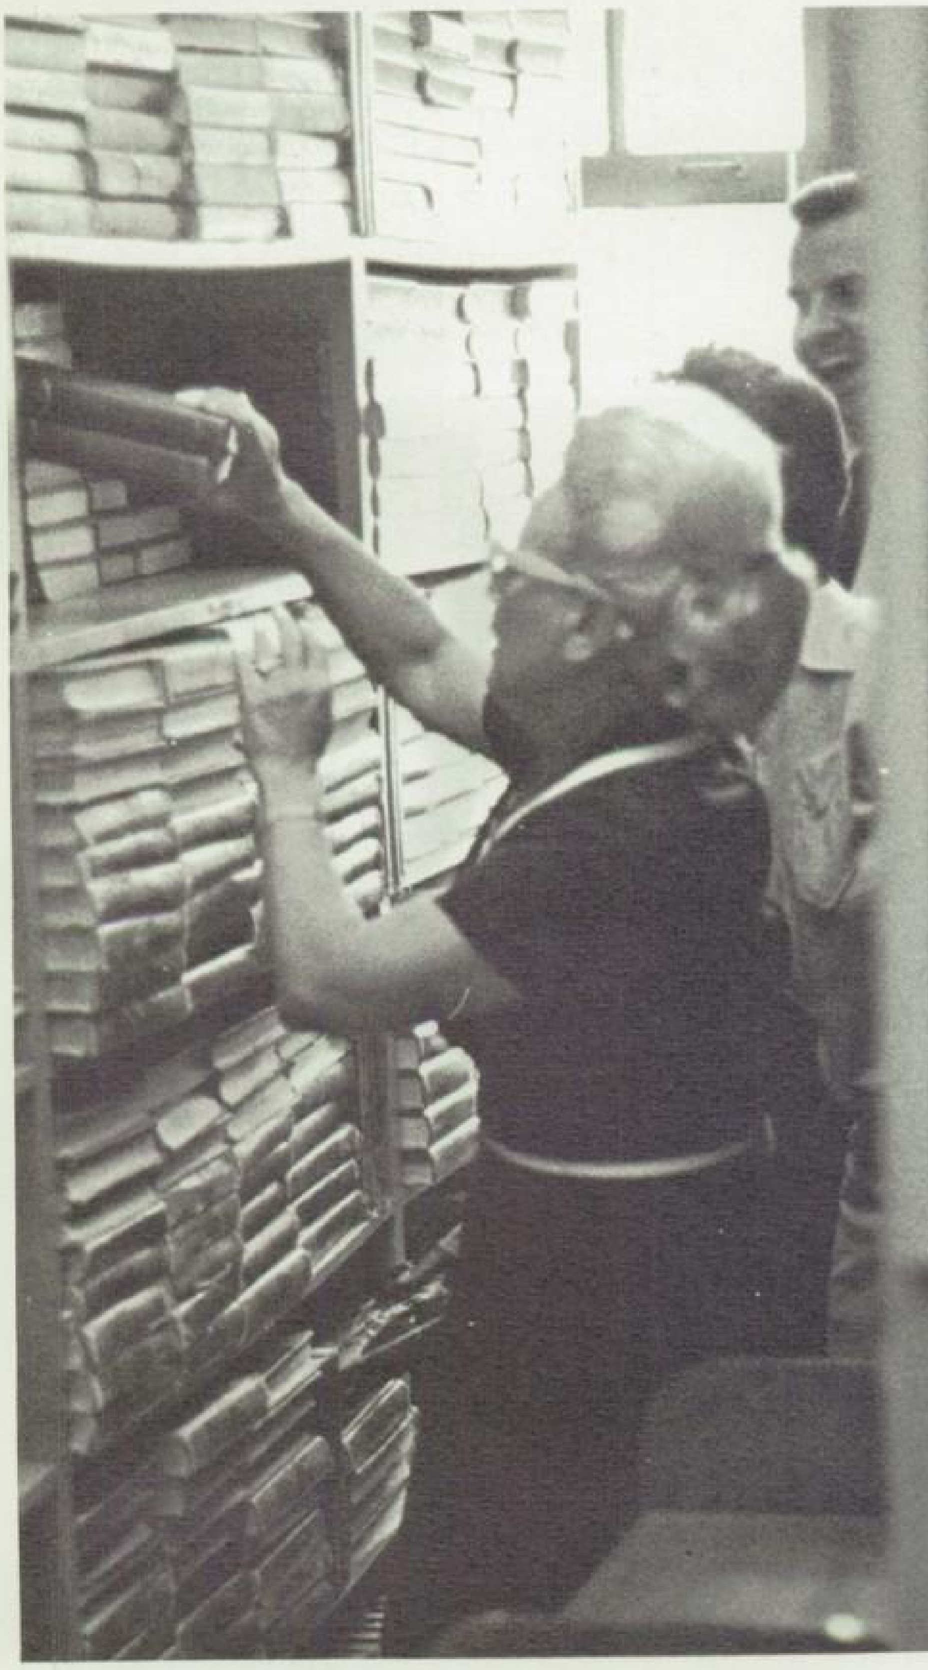

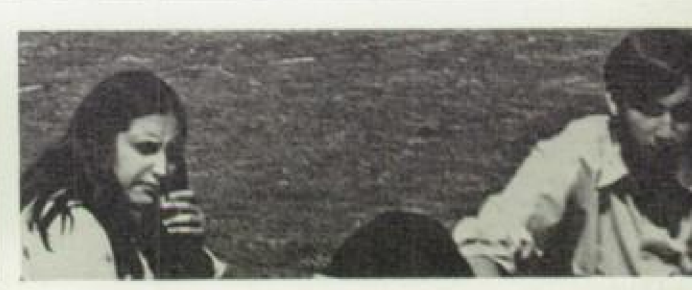

PATRONIZE OUR ADVERTISERS

I write here to remediate the obscenity splattered on this piece of PAper

Congratulations

(SENTIMENTAL REMINISCING AND BS)

When you read this perhaps you will have outthought your conventional conservative pretentions.

Now that you have your diploma you can start a job almost anywhere.

Anyway, I won't write have a great summer since you obviously will and hopefully will not read this assinine autograph til

But you can start a career at General Telephone.

Pierre

Apply now, Bundy and Santa Monica Boulevard, West Los Angeles | General Telephone is a company providing equal opportunity.

BIG

As the school year draws to a close, so does this 1970 Chieftain. The Staff hopes that it has captured through photographs and written word the highlights of the year which seems to have involved a greater number of students and changes in traditions. The greatest of these being senior class graduating in the Pauley Pavilion which launches the first annual promotion in the Los Angeles City Schools.

Good-byes are always most difficult, especially to old friends, but to many, particularly our graduating seniors, it is only the beginning. To others it remains only a summer good-bye as Uni will greet them in September. To our teachers we give our appreciation for their assistance and guidance throughout this year. To those teachers who are retiring this year we save a fond remembrance in our hearts as they leave Uni and teaching after years of service.

Many special thanks to those who have made possible the assembling and printing of this 1970 Chieftain—Ron Riddick for his design of the division pages; Miss Addision for keeping the account straight; Mr. Powell of the American Yearbook for his understanding, and Mr. Davis and the Davis Studio for their willing assistance always; and above all, thanks to you, Mr. Nikirk, our Chieftain Sponsor, for your untiring steadfastness which has brought this book to realization.

To Dave a Very cool guy Keep your cool and I'll say you in africa ('70)
Benny Green

Vincent Pruniau

Dave
Have a great summer and have a lot of fun on your vacation. See you next semester.
Jim

Dave,
Have a nice vacation. Don't work too hard at the market. Have fun with those girls.
Jim Arikawa

Dear Dave,
It's been alot of fun with you in good ole "Mother's" class. I hope we have more classes together in the 12th grade. I hate to say this but — do have a good summer! See you in Sept.
Love,
Suzanne

Dave,
I'm glad we were in English together so we could have the chance to be friends! Have a great summer! I hope our friendship will continue. You're really a nice guy!
Love,
Lynn

To a real cool guy,
It was nice having you in our algebra class. Have a great summer and don't get sunburned. See you in September, and good luck in whatever you do.
Your friend always,
Doug Kato

Adolf,
Keep it going
Luck.
Richard Mason

Dave,
You're a great guy and I hope your Summer is a great one. Luck
Friends always
Martin Lawrence

DAVE -
HAVE A FUN SUMMER AND GOOD LUCK THE REST OF YOUR LIFE
Scott Grandi

To a guy who didn't turn his history report, but gets his A anyway
See you next year
RICKY

DAVE,
I CAN'T THINK OF A DAMN THING
TO SAY SO DON'T LAUGH.

Dave,
It's been a
fun year ever
with MIDDLETON have
a cool summer with the spirits
see you next year in germany
Joe Peter (WOLFGANG!)

Dave,
You're a
very smart guy +
know you do well
in life. I hope you'll
never have another final
like the one in chemistry!
Have a nice summer.
Blaine Breeskin

David,
I wish you
the best of luck
as a drummer. I
know you will because
a great success
I felt the demonstrations
during chemistry were a
great summer and good luck
in Sept.
Love,
Francie
Gummer

Dave;
Keep cool and
have a great summer.
Maybe I'll teach
you how to whistle through your
you-know-what.
